

## **ISDA'09 - TECHNICAL INSTRUCTIONS FOR THE SPEAKERS**

Each presentation room is equipped with a Windows PC connected to the video projector. PCs are not connected to the Internet. Presentations can be loaded only via USB or CD/DVD. There is also a VGA cable that can be used to connect a personal laptop to the system. The presentation programs installed on the PC are listed in the following. Please, check your presentation using one of these products.

### **PowerPoint Viewer 2007, English**
